The following safety precautions are given throughout this manual. They must be strictly followed to protect those who install, use or maintain this product as well as to prevent other people's injuries and property damages.

Be sure to read the following

•The following suggestions show the degree of danger and damage caused when the product is used improperly with the suggestions disregarded.

•The following graphic suggestions describe the types of precautions to be followed.

•Definitions of qualified in-shop maintenance persons and industry specialist who handle this product.

•In this instruction manual, some procedures require a qualified in-shop maintenance person or industry specialist. For such instructions, a qualified person must take care of the jobs. •Otherwise an electric shock, machine trouble, or a serious accident may result.

•Replacing the machine parts, inspecting and maintaining the machines, and troubleshooting must be assigned only to a qualified in-shop maintenance person or industry specialist. This booklet gives instructions that hazardous jobs in particular must be handled by an industry specialist. Qualified in-shop maintenance persons and industry specialist are defined as follows.

Qualified in-shop maintenance persons

• A qualified in-shop maintenance person must have experiences in maintaining amusement machines, money changers and the like. Under the supervision of an amusement machines shop owner or manager, he or she routinely assembles, installs, inspects and maintains the amusement machines, or replaces their component units and consumable parts, in the amusement machines workshop and/or shop.

Jobs handled by qualified in-shop maintenance persons

• Assembling, installing, inspecting and maintaining amusement machines and money changers, and replacing their component units and consumable parts.

Industry specialist

• An industry specialist must be engaged in designing, manufacturing, inspecting and servicing amusement machines. Or he or she must have an education in electrical, electronic and mechanical engineering, and routinely maintain and repair amusement machines.

Jobs handled by industry specialist

Assembling and installing amusement machines and money changers, and repairing and adjusting their electrical, electronic and mechanical component parts.

Setting Up

 Be sure to consult your nearest dealer when setting up, moving or transporting the other should not be set up, moved or transported by anyone other than induced by anyone other than injury or product damage. When installing this product, set the 12 adjusters stable on the floor and make sure that installed stably in a horizontal position. Unstable installation may result in injury or account of the installing this product, use case not to apply undue force to opening and closing movable parts. Otherwise, injury or accident may result, or the product may be damaged. 	the product is ident. parts and other
•This product is an indoor game machine. Never set up the game machine outside •Setting up this product outside could result in accidents or equipment failure.	\odot
•Do not set up the game machine near emergency exits. •Doing so could block exits in time of emergency and could result in death or serious injury.	
 •Do not set up the game machine. •Otherwise an accident or malfunction may result. •In a place exposed to rain or moisture. •In a place exposed to direct sunlight. •In a place exposed to direct heat from air-conditioning and heating equipment, etc •Near hazardous flammable substance such as thinner and kerosene. •On an inclined or uneven floor. •Near fire extinguishing equipment. •In a place exposed to strong vibration. •In a place exposed to excessive dust. •Near equipment generating strong magnetism or electric waves. 	\bigotimes
•Do not place containers holding chemicals or water on or near the game machine. •Electrical shock or damage could be caused by water or foreign matter entering the inside of the machine.	
•Do not place objects near the ventilating holes. •Doing so could cause the internal temperature to rise excessively, resulting in fire or equipment failure.	\sim
•Do not bend the power cord by force or place heavy objects on it. •Doing so could result in electric leakage or fire.	\otimes
•Never plug or unplug the power cord with wet hands. •Doing so could result in electrical shock.	\otimes
•Never unplug by pulling the power cord. •Doing so could damage the cord, resulting in electric leakage or fire.	\bigotimes
	J

Setting Up •Be sure to use indoor wiring for within the specified voltage range. For extension cord, use indoor wiring of the specified rating or more. •Failure to do so could result in fire or equipment failure. •Be sure to use the attached power cord. •Otherwise a fire or machine trouble may result. •Never plug more than one cord at a time in the electrical receptacle. Doing so could result in fire or electrical shock. •Do not lay the power cord where people walk through. You may tread on or stumble over them. ·You may stumble down and get injured, or damage the power cord. •Be sure to ground this product. Otherwise an electric shock or machine trouble may be caused. •Clearance of 100 mm (3.94in) or more should be created between the game machine and walls. •Otherwise the machine (s) cannot be ventilated well, resulting in malfunction. •Do not hold the unit connection pipe when moving this product. Otherwise, it may result in an injury or accident. •After the units are connected, never move the product across a step. •Otherwise, it may result in an injury or accident, or damage to the units. Provide a clearance of more than 200 mm (8 in) and less than 400 mm (16 in) between the stage units and the cabinet unit. If a player sticks his foot between the units, he may be injured. If a too large clearance is provided, a player who is on way of stepping down from the stage units may step on the unit connection pipe and tumbling down, resulting in a serious injury. •Do not change the DIP switch setting of this product to other than factory setting. Otherwise, the game can not be played properly.

Operation

•If there is any abnormality such as smoke, bad smell or abnormal noise being emitted from the machine, immediately turn OFF the main power switch and unplug the power cord from the receptacle to stop operating it. •Using the machine in abnormal conditions could result in fire or accidents.

In case of abnormality -

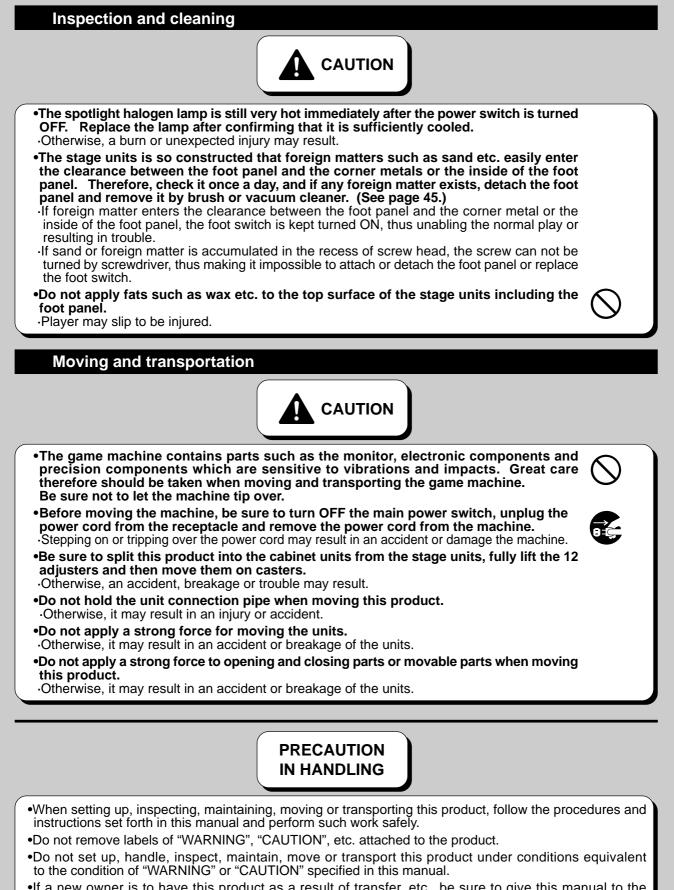

1 Turn OFF the main power switch.

2 Unplug the power cord from the receptacle.

3 Contact your nearest dealer.

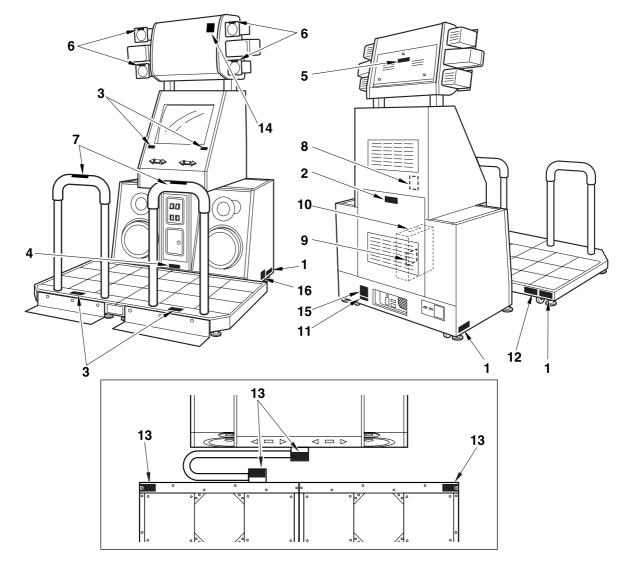

•Do not leave the power cord plugged improperly or covered with dust. •Doing so could result in electrical shock or fire, so inspect the power cord periodically.

Operation CAUTION •Do not use this product anywhere other than industrial areas. Using in a residential area or an area next to a residential area could affect signal reception of radios, television sets, telephones, etc. •The following users should not play the game. •Doing so could cause accidents or illness. •Those under the influence of alcohol. •Those in bad shape. •When a player holds food in his hand. •Those suffering from or being treated for arm, wrist, leg or foot ailments. •Those suffering high blood pressure or heart ailments. •Those pregnant or probably pregnant. When a player wears unstable shoes like high-heeled shoes or slippery shoes, pa a player is barefoot. •Players should be advised of the following precautions during a play. Inobservance of the precaution may cause an accident. .Do not hang on to or lean against the safety bar. •Do not give impact to the glass cover. Otherwise, it may result in an unexpected accident or injury. •If the surface of the stage units is wet, wipe it dry before playing. Otherwise, a player may tumble down by slipping while playing, resulting in injury. •Do not give impact to the foot panel with a force more than necessary. •Otherwise, an unexpected accident or injury may be caused. •Do not plug or unplug the power cord with wet hands. Doing so could result in electrical shock. In handling the power cord, follow the instructions below. Otherwise an electric leak, fire or electric shock may result. Normal communication play may also be impossible. •Do not modify the power cord. •Do not twist the power cord. Do not damage the power cord. Do not bend the power cord excessively. Do not heat the power cord. Do not pull the power cord. •Do not bind the power cord. •Do not sandwich the power cord. Do not tread on the power cord. Do not drive a nail into the power cord. •If the power cord or power plug becomes damaged, stop using the machine immediately and ask your nearest dealer to replace the parts. Using a damaged power cord or power plug could result in fire or electrical shock. Inspection and cleaning WARNING •Be sure to turn OFF the main power switch and unplug the power cord from the receptacle before inspecting or cleaning the machine. Failure to do so could result in electrical shock. •When replacing parts, be sure to use parts of the correct specifications. Never use parts other than the specified ones. Using improper parts could result in fire or equipment failure. •There are high-voltaged parts inside the product. Other persons than qualified industry specialist should not open the back door. When the back door is opened, pay due attention not to touch the inside unnecessarily. Otherwise an accident or electric shock may result. •If the sub power switch of the service panel is turned OFF without turning OFF the main power switch of the power supply unit, some parts in the units remain live. When opening the back door, be sure to turn OFF the main power switch and unplug the power When cord from the receptacle. •Otherwise, there may arise a danger of accident or electric shock. •Strictly refrain from disassembly and repair of parts which are not indicated in this manual, as well as settings and remodelling Otherwise, a fire, malfunction or trouble may result. In case of any trouble, ask your nearest dealer for repairs and other services. Konami will not resume any responsibility for the damage to the product attributable to disassembly and repair of parts which are not indicated in this manual, as well as settings and remodelling. •Open and close the fluorescent light cover gently. ·Failure to do so could result in breakage of the fluorescent lamp etc. •To clean the game machine, wipe it with a soft cloth dampened in a neutral detergent and wrung out. Using thinner or other organic solvent or alcohol may decompose the material. Particularly, the foot panel (acrylic resin plate) may be deformed or broken. Electrical shock or equipment failure could be caused by water entering the inside of the machine.

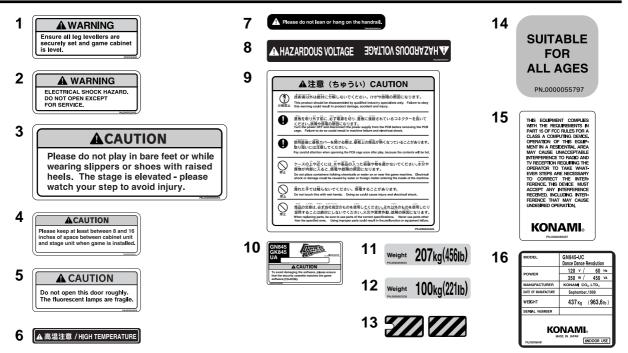

•If a new owner is to have this product as a result of transfer, etc., be sure to give this manual to the new owner.

Follow the procedure below when heaving up the product.

3 How to play

"Dance Dance Revolution[™]" is such a game that one or two players step on any of the foot panels corresponding to the four kinds of arrows, which appear from the lower part of the screen, timely in accordance with music.

How to play -----

1 Put coin(s) into the slot and press the start button. Then, "MUSIC SELECT" appears on the screen.

- **2** The indication on the screen changes to MUSIC SELECT. Select a desired number by pressing the select button and then press the start button to enter the number.
- **3** The game starts at time moment. Step on any of the foot panels corresponding to the four kinds of arrows which appear from the lower part of the screen, timely in accordance with music.

The evaluation of "Perfect", "Great", "Good", "Boo" or "Miss" is indicated on the screen according to the timing of stepping.

•When the evaluation of "Perfect" or "Great" is given, the score on the dance gauge at the upper part of the screen increases.

•When the evaluation turns to be "Boo" or "Miss", the score on the dance gauge decreases. When the point on the dance gauge decreases extremely, "Danger" appears on the screen, telling the player the end of the game is approaching.

4 The game is over when the score on the dance gauge becomes "0".

(In the case when two players play the game, the game is not over unless the scores of both the dance gauges of the player become "0".)

•When a number is played to its end, the ranking of the player "SS", "S", "A", "B", "C", "D" or "E" is indicated on the screen after the comprehensive evaluation of the number of evaluations "Perfect", "Great", "Good", "Boo" and "Miss" obtained for each number, the score and playing condition.

5 When predetermined number of music numbers are cleared, the name entry appears on the screen only when the score has reached worth for ranking.

In the name entry screen, alphabet letters appear from the screen. Then, step on the foot panel to perform name entry in such timing that the alphabet letters to be registered should overlap the step zone on the screen.

Joining the game halfway

•No one can join the game during a play (while the dance gauge is appearing on the screen).

A player can join the game halfway only when "MUSIC SELECT" or "How to Play" is appearing on the screen. The number of music numbers that can be played does not change even when someone join the game halfway.

4 Opening and closing the doors

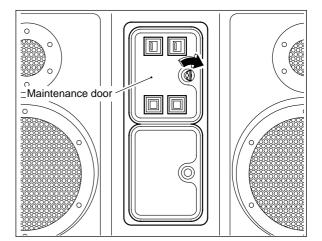

4-1 Opening and closing the maintenance door

How to open the maintenance door —

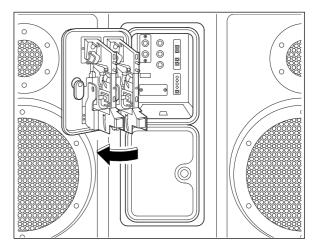

•Take care not to apply any load or impact to the maintenance door when it is open.

•After closing the maintenance door, be sure to check that the door is locked securely.

1 Insert the accompanying maintenance key and turn it clockwise.

2 Open the maintenance door.

How to close the maintenance door —

- 1 Close the maintenance door.
- **2** Turn the maintenance key counterclockwise and draw it out.

4-2 Opening and closing the coin door

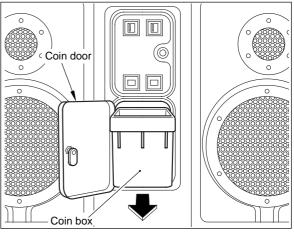

Opening and closing the coin door and removing the coin box

•Take care not to apply any load or impact to the coin door when it is open. •Securely lock the door for protection against burglaries. •Note that the coin box is considerably heavy to take out if it is full of coins.

- Insert the attached coin door key in the coin door and turn it clockwise.
- 2

1

Open the coin door and take out the coin box.

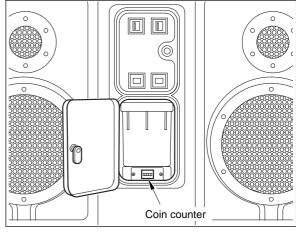

Coin counter -

You will find the coin box when the coin door is opened. The coin counter is located under the coin box.

-MEMO

•To move the coin counter onto the service panel, see page 39.

5 Game settings

5-1 Checking the game performance

■ When the power switch is turned ON after installation of machine, the performance of game Printed Circuit Boards (PCB) is checked automatically and the result is displayed on the screen. If the power is not turned ON, make sure that the main power switch and sub-power switch are both at the ON position. (See page 35)

•If an abnormality persists or the machine does not operate properly, immediately turn OFF the main power switch, unplug the power cord from the receptacle and contact your nearest dealer.

Result of test

If test is OK-

•The machine goes to the game mode and the demonstration game gets started.

If any abnormality is detected -

• "BAD" appears on the screen, and the checking is repeated.

After the installation of this product or when the PCB unit has been repaired or replaced, turn ON the power switch while pressing the test button of the service panel to initialize the setting once to the original factory setting.

At this time, keep pressing the test button until "RTC DATA INITIALIZED. PLEASE RELEASE TEST BUTTON" appears.

If an abnormal display continues or the machine does not operate normally, immediately turn OFF the main power switch, unplug the power cord and contact your nearest dealer.

5-2 Setting and adjustment of game mode

Manually check and change the settings for the screen displays and game contents and change them as reguired.

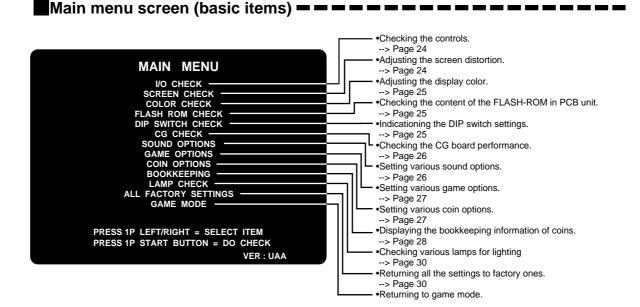

Starting the test mode - -

- 1 Turn ON the power switch.
- 2 While the demonstration game is playing, press the test button on the service panel. (Do not turn ON the power switch with the test button held down. The current settings will be erased and the machine will have the factory settings.) •The main menu is displayed on the screen.

Quit the manual test mode - -

- **1** Press the 1P select button (< >) to select "GAME MODE" on the main menu.
- 2 Press the 1P start button.

•The screen goes back to the game mode.

Selecting each mode -

How to select each mode from the main menu

•SELECT --> Press the 1P select button (< >).

-SET --> Press the 1P start button.

After selecting a mode, refer to the page on which that mode is described in details.

5-3 Mode descriptions

The original factory settings are displayed in green; the changed settings are displayed in red.

•Press the 1P select button to select a mode to be modified. Press the 2P start button to change the setting.

•After the setting has been changed, select "SAVE AND NEXT" and press the 1P start button for entry.

"NOW SAVING" will appear, the modified settings will be saved, and the screen returns to the main menu.

-If "EXIT" is selected after the modification of the settings, the following message will appear.

"YOU DID NOT SAVE. DO YOU WANT TO SAVE? YES/NO" select "YES" or "NO". Press either the 2P start button or the select button to select "YES" or "NO", and press the 1P start button for entry.

If "YES" is selected, the new settings will be saved with "NOW SAVING" displayed and the screen will return to the main menu.

If "NO" is selected, the message "NO MODIFICATION" will appear, the modified settings will not be saved, but the main menu will show up again on the screen.

•If "FACTORY SETTINGS" is selected and the 1P start button is pressed, all the setting of the mode will be returned to the factory setting.

- MEMO –

I/O CHECK

Checking the controls

Mode for checking the performance of buttons and controls.

To return to the main menu screen, press the 2P start button while pressing the 1P start button.

•There are four footswitches for one panel. The following symbols are displayed in addition to "ON".

•L ... Left footswitch is ON.
•R ... Right footswitch is ON.
•U ... Upper footswitch is ON.
•D... Lower footswitch is ON.
•- ... Footswitch is OFF

•Indication "ON" displayed without stepping on the foot panel may be due to entry of sand or foreign matter in the foot panel. If that is the case, remove it according to the description on page 45.

•If "ON" is still displayed even after the removal of sand or foreign matter, immediately turn OFF the power switch, unplug the power cord and contact your nearest dealer.

MEMO

SCREEN CHECK

Adjusting the screen distortion

Mode for checking the screen display. Adjust the focus, distortion and size of the image on the screen while watching the crosshatch pattern. Use the monitor adjustment PCB (See page 48) to make adjustments.

To return to the main menu screen, press the 1P start button.

COLOR CHECK

Adjusting the display color

■Mode for checking the display color.

Make the adjustment using the monitor adjustment PCB (See page 48) so that the colors of the color bars should appear properly graduated and the background should become black sufficiently.

To return to the main menu screen, press the 1P start button.

FLASH ROM CHECK

Checking the content of the FLASH-ROM in PCB unit

Mode for checking the FLASH-ROM. In this mode, the FLASH-ROMs in PCB unit is checked one by one. When a ROM is normal, "OK" is indicated, and if an abnormal ROM is found, "BAD" is indicated.

When the question "DO YOU WANT TO CHECK FLASH ROM ? YES/NO" appears, press the 1P select button to select "YES" or "NO" and press the 1P start button for entry.

When "YES" is selected, FLASH-ROM checking starts automatically. It takes about 40 sec. for checking.

To return to the main menu screen, press the 1P start button. (The game can be interrupted at any time during a play.)

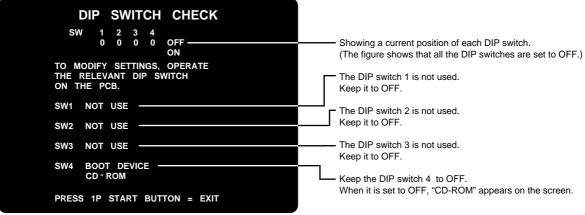

•If "BAD" is indicated, immediately turn OFF the power switch, unplug the power cable and contact your nearby "Konami Service Center".

DIP SWITCH CHECK

Indicationing the DIP switch settings

Mode for checking the setting of the DIP switches. Be sure to set the DIP switches as follows.

To return to the main menu screen, press the 1P start button.

•This screen is just an example.

DIP switch bit No.							
1	2	3 4					
OFF	OFF	OFF	OFF				

•Since the DIP switches have been set in the status shown in figure. at left at the time of shipment, the game starts simply by pressing the power switch. If the bit No. 4 is turned "ON", the game will not start even by pressing the power switch.

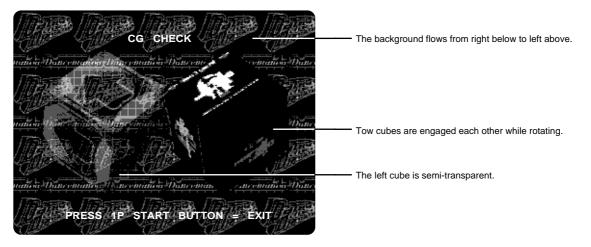

MEMO

CG CHECK

Checking the CG board performance Mode for checking the CG board function.

Check the function of the CG board by watching the motion on the screen in this mode to see if the board works normally or not.

To return to the main menu screen, press the 1P start button.

SOUND OPTIONS

Setting various sound options

■Mode for setting and checking the sound options.

Press the 1P select button to select an item. Press either the 2P start button or select button to change the setting.

To return to the main menu screen, select "SAVE AND EXIT" or "EXIT" and press the 1P start button.

SOUND OPTIONS SOUND OUTPUT STEREO ONLY SOUND IN ATTRACT MODE ALL THE TIME SOUND SCALE CHECK 1	This item can not be selected nor changed. Turns on and off the demo play sound. •ALL THE TIMESound always on. •ONCE EVERY 4 CYCLESSound on every 4 cycles. •COMPLETELY OFFSound always off.

•This screen is just an example.

BOOKKEEPING

Displaying the bookkeeping information of coins

MEMO

Mode for displaying the total data on the number of coins put in the machine. If the time is preset on the "CLOCK SETUP" screen, the total data on the number of coins put into the machine can be checked for each coin slot.

To return to the main menu screen, select "SAVE AND EXIT" or "EXIT" and press the 1P start button.

•This screen is just an example.

•If the time setting has not been made — for example, after the machine has been set up or initialized —, the "CLOCK SETUP" screen shows up.

•When the time setting has been modified, the bookkeeping information is automatically cleared. With the current time not set, the total of received coins and other bookkeeping data are not displayed. (The data once erased can not be resumed.)

■When the time has been preset on the "CLOCK SETUP" screen as shown above, the following "VIEW BOOKKEEPING INFORMATION" is displayed on the screen. When the 1P select button is pressed, the screen changes as follows.

To return to the main menu screen, press the 1P start button in individual display screen.

Also, when the current time has been set and the 2P start button is pressed in each screen, the current time and bookkeeping data can be cleared.

At this time, the question "DO YOU WANT TO CLEAR ALL BOOKKEEPING DATA? YES/NO" is indicated on the screen. Then, press the 1P start button to select "YES" or "NO".

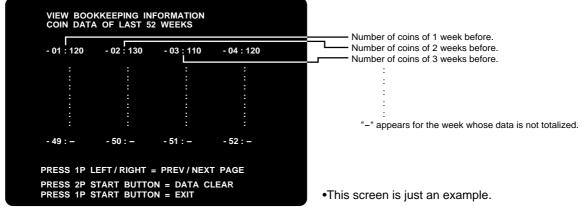

If "YES" is selected, the question for re-confirmation appears on the screen. If "YES" is selected again, all the bookkeeping data are deleted and "CLEAR BOOKKEEPING" appears on the screen, the data is saved as was set at the time of shipment and the main menu appears again automatically.

If "NO" is selected, "NO MODIFICATION" is indicated and the main menu appears again without deletion of the data.

8

How to connect the stage units

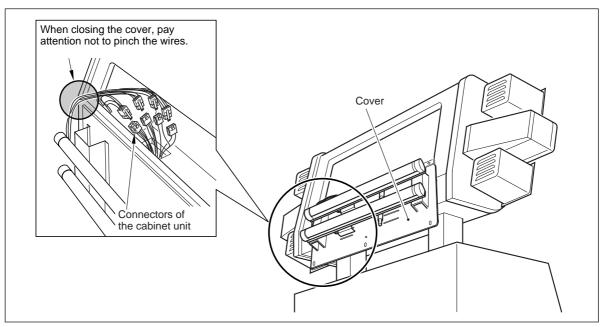

Do not apply a strong force for moving the stage units after connection.
Never move the stage units across a step after connection.
Pay full attention not to pinch wires in the connection of the stage units.

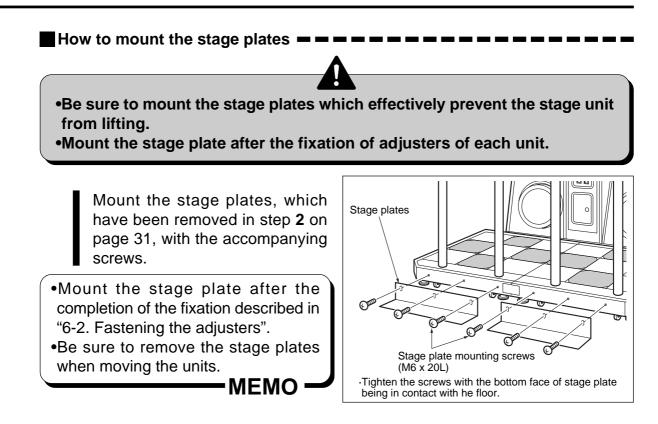

- **1** Remove plates shown in the figure from the stage units.
 - Remove safety bar fixing bolts from the stage units.
- **3** Use the bolts removed to fix the stage units.
- 4 Reinstall the plates removed in step 1 above.
- **5** Remove the joint metals mounted to the stage units.
- **6** Remove the stage plates mounted to the cabinet unit.
 - Connect the connectors which link the right and left stage units.
 - Connect the right and left stage units at two points with the joint metals removed in step **5** above.

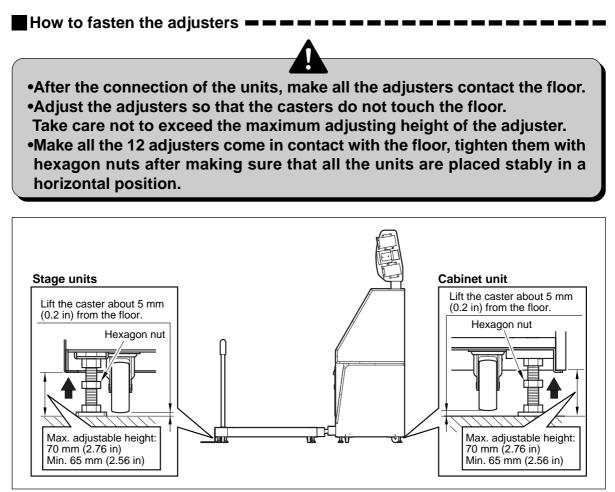

How to mount the title unit •Before mounting the title unit, be sure to fix the units by adjusters. (See the description of 6-2. Fastening the adjusters on page 34.) •The title unit weighs 28 kg approx. Be sure to carry out the mounting work by three persons or more, using a stepladder for safety sake. •Pay full attention not to allow your hand or wires to be pinched while mounting the title unit. Fix each of the units with adjusters by referring to the description of "6-Title unit 2. Fastening the adjusters" on page 34. 2 Place the title unit on the cabinet unit and fix it by tightening the plain washers and screws for title unit Screw for title unit mounting mounting by means of the (M6 x 20L) accompanying hexagon wrench. Cabinet unit 6-00 •Do not hold the units by speakers and spotlights. l •Pay attention not to pinch the wires. Plain washer for title unit 直 mounting (6) - MEMO 3 Open the title unit cover, pull out the connector from the bottom opening of the cabinet unit and connect them. (See page 41 for how to open the title unit cover.)

6-2 Fastening the adjusters

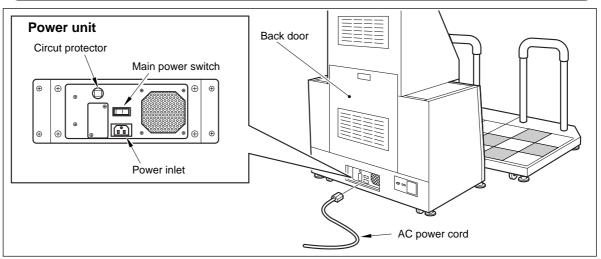

6-3 Power unit

Power unit

The power supply unit is provided at the rear side of the cabinet unit.

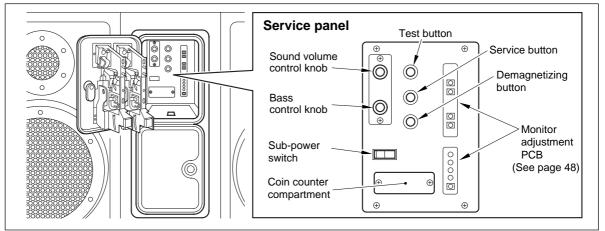

- •Be sure to use the attached AC power cord.
- •Be sure to ground to the machine. Never connect the grounding wire to gas pipe, water pipe or telephone ground terminal.
- •There are high-voltaged parts inside the product. Other persons than qualified industry specialist should not open the back door. When the back door is opened, pay due attention not to touch the inside unnecessarily.
- •If the sub power switch of the service panel is turned OFF without turning OFF the main power switch of the power supply unit, some parts in the units remain live. When opening the back door, be sure to turn OFF the main power switch and unplug the power cord from the receptacle.

6-4 Service panel

Service panel -

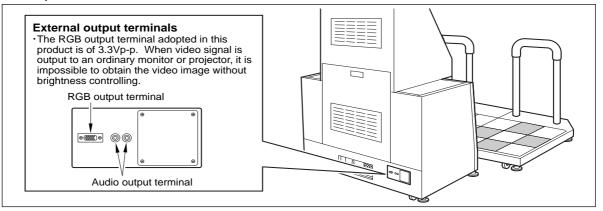

Using the accompaying maintenance key, open and detach the maintenance door to access the service panel inside.

6-5 External output terminals

External output terminals

For video output and audio output from this product, the external output terminals are provided at the rear side of cabinet.

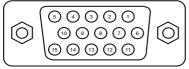

Specification of RGB output terminal

When outputting the video image to an external projector etc. through this RGB output terminal, be sure to check the external equipment to be connected to this terminal to see if its specification is compatible with the specification of the terminal. The RGB output terminal outputs the RGB signal of 3.3Vp-p video signal amplitude for a video game monitor CRT of composite SYNC specification. Accordingly, if this signal is input by a monitor CRT for personal computer etc. of 0.7Vp-p amplitude, horizontal/vertical separation SYNC input specification, such monitor CRT will not work normally or cause a trouble with the equipment.

Please refer to the tables below as for the specifications of the RGB terminal.

15-pin Mini Dsub (conforming to MIL-C-24308 Standard) (Female) Video signal output specification

Horizontal sync.frequency	15.8kHz					
RGB video signal level	3.3Vp-p					
RGB video signal terminal	High impedance					
Sync. signal level	TTL level					
Sync. signal system	Composite					

Arrangement

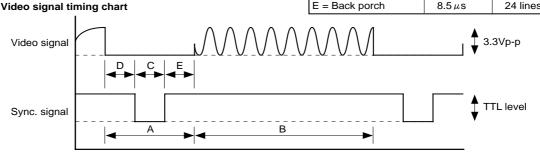

1	RED	6	GND	11			
2	GREEN	7	GND	12			
3	BLUE	8	GND	13	C-SYNC		
4		9		14			
5		10	GND	15			

Video signal timing

 $0\pm 6dB$

2kΩ

	Horizontal sync.	Vertical sync.
Sync. frequency	15.8kHz	59.8Hz
A = Non-display section	16µs	38 lines
B = Display section	47.8μs	224 lines
C = Sync. signal amplitude	3.81 μs	2 lines
D = Front porch	3.69 <i>µ</i> s	12 lines
E = Back porch	8.5µs	24 lines

6-6 Mounting billboards

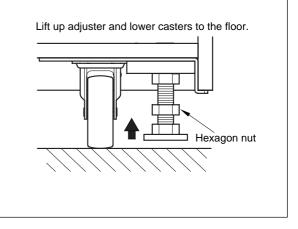

6-7 Splitting into and moving of units

How to split into units ----

This product can be split into individual units.

- •Before splitting the product, be sure to turn OFF the main power switch and unplug the power code from the receptacle.
- •When moving this product, be sure to split it into the stage units, cabinet unit and unit connection pipe and remove connectors.
- •If it is necessary to separate the title unit from the cabinet unit, split them before loosening the adjusters.
- •Fully lift up the 12 adjusters before moving the product. Use casters to move it.
- •When connecting the split units again, pay due attention not to pinch your hand and wires.
- **1** Turn OFF the main power switch and unplug the power cord from the receptacle.
- 2 Split the stage units from the cabinet units in the reverse of connection. (See page 32.)
- **3** Remove the stage plates mounted to the stage units. (See page 34.)
- Unit connection pipe
- 4 Loosen the 12 adjusters and move the units on casters. It is necessary to dismount the title unit, dismount it before loosening the adjusters.

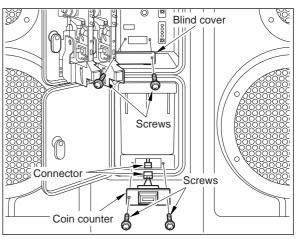

6-8 Moving the coin counter

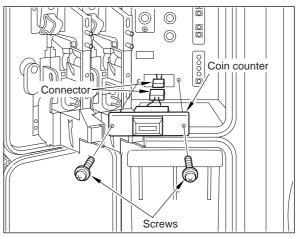

How to move the coin counter

The coin counter was installed in the coin box when the machine left the factory, but it can be moved onto the service panel.

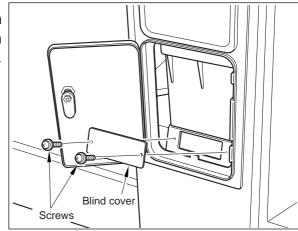

- Be sure to turn OFF the main power switch and unplug the power cord from the receptacle.
- 2 Open the coin door, remove the screws and take out the coin counter. In the meanwhile, disconnect the connector.
- **3** Remove the maintenance door and unscrew the blind cover to remove it from the service panel.
- 4 Draw the connector out of the opening of the service panel and connect this connector to the coin counter's connector.
- 5 Attach the coin counter on the service panel with the screws.

6 Attach the blind cover (detached in Step 3 above) back in position on the coin counter using the screws.

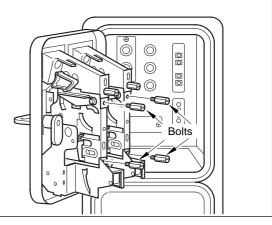

7 Maintenance

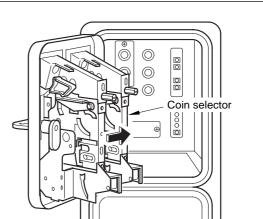

7-1 Replacing the coin selector

How to replace the coin selector

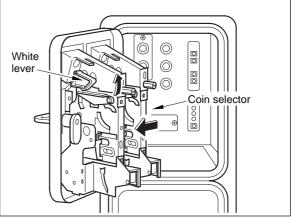

- •Before replacing the coin selector, be sure to turn OFF the main power switch and unplug the power cord from the receptacle.
- •When replacing parts, be sure to use parts of the correct specifications. Never use parts other than the specified ones.
- •Strictly refrain from disassembly and repair of parts which are not indicated in this manual, as well as settings and remodelling.
- Be sure to turn OFF the main power switch and unplug the power cord from the receptacle.
- 2 Open the maintenance door and remove two bolts as shown in figure which fix the coin selector.

3 Release the levers that fix the coin selector. See at right.

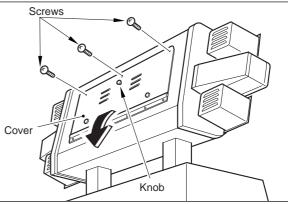

- 4 **To fit the coin selector again** While holding up the white lever, mount a new coin selector by sliding it toward the left.
- 5 After fixing the bolts which have been remove in step 2, close the maintenance door.

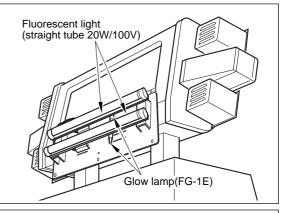

7-2 Replacing the fluorescent light

How to replace the fluorescent light --

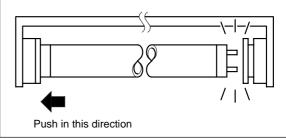

- Before replacing the fluorescent light, be sure to turn OFF the main power switch and unplug the power cord from the receptacle.
 Open and close the fluorescent light cover gently.
 The florescent light is hot just after the power switch is turned off. Wait until it cools down and then replace it with a new one of the same type (straight tube 20W / 100V).
 When replacing parts, be sure to use parts of the correct specifications. Never use parts other than the specified ones.
 Strictly refrain from disassembly and repair of parts which are not indicated in this manual, as well as settings and remodelling.
- **1** Be sure to turn OFF the main power switch and unplug the power cord from the receptacle.
- 2 Remove the screws off the cover, and hold the knob and gently open the cover.

- **3** Push one end of the fluorescent light in the direction of the socket. The other end of the fluorescent light will be detached from the opposite socket.
 - Install a new fluorescent light in the reverse order and close the cover.

4

• MEMO •

•It is recommended to replace the glow lamp at the same time.

7-3 Replacing the spotlight lamp

How to replace the spoilight lamp

•Before replacing the halogen lamp, be sure to turn OFF the main power switch and unplug the the power cord from the receptacle .

•The halogen lamp is still very hot immediately after the power switch is turned off. Make sure that it is sufficiently cooled before replacement work.

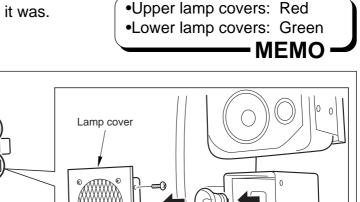

•When replacing parts, be sure to use parts of the correct specifications. Never use parts other than the specified ones.

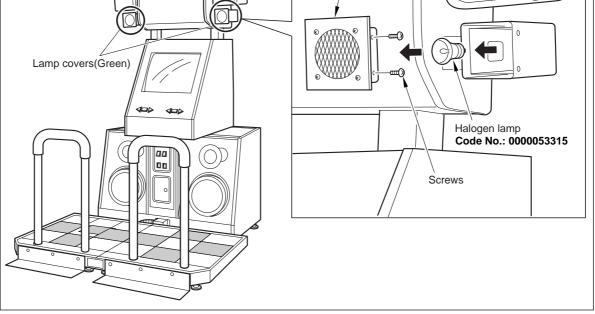

•Strictly refrain from disassembly and repair of parts which are not indicated in this manual, as well as settings and remodelling.

- Be sure to turn OFF the main power switch and unplug the power cord from the receptacle.
- **2** Remove the screws and detach the lamp covers.
- **3** Remove the halogen lamps.

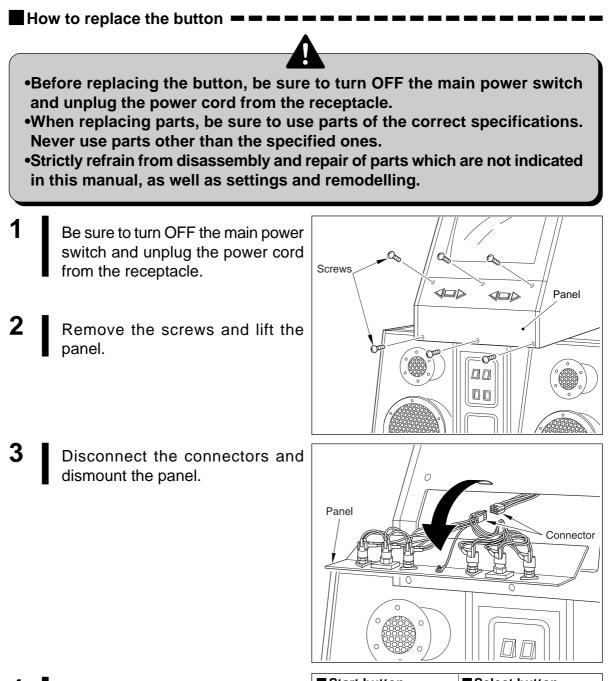

Lamp covers(Red)

- **4** Mount a new halogen lamp in the reverse of removal.
- **5** Attach the lamp covers as it was.

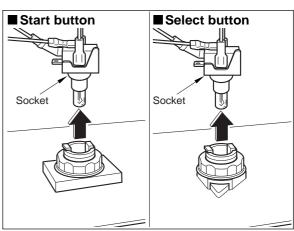

7-4 Replacing the button

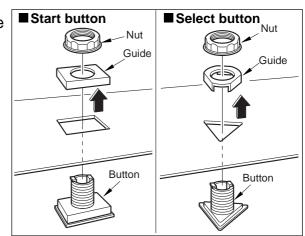

4 Pull out the sockets from the buttons.

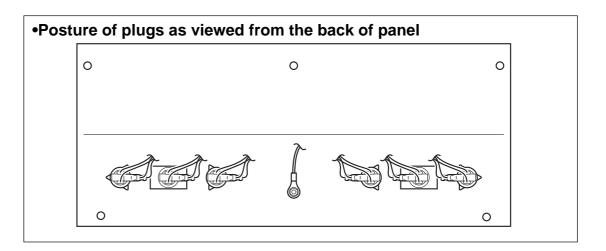

Loosen the nuts and separate the button.

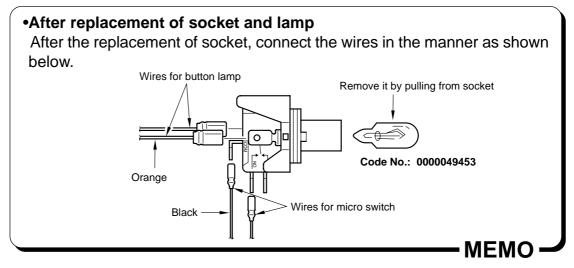

6 To fit the button again

Set the buttons so that the projections at the back side of buttons should fit into the holes of panel and fix them by nuts.

Pay attention to the posture of buttons, and sockets and assemble them in the reverse of disassembly, using care not to confuse the wires. Pay attention not to pinch the wires when mounting the panel to the cabinet unit.

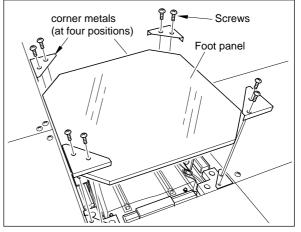

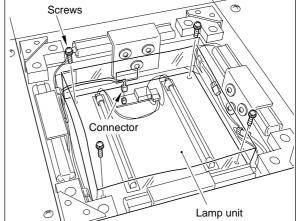

7-5 Maintenance of foot switch

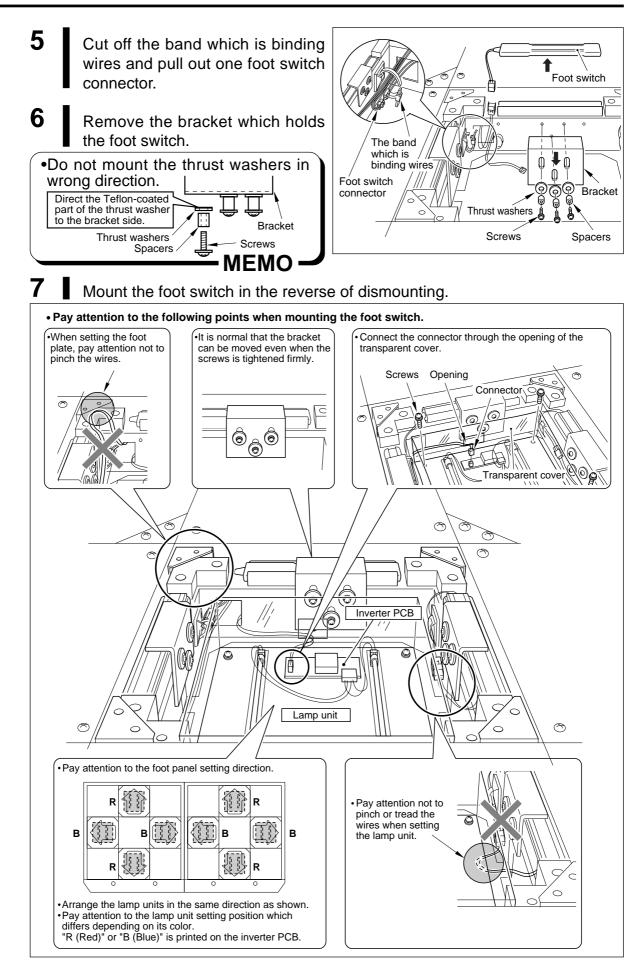

Maintenance of foot switch

- Before replacing the foot switch, be sure to turn OFF the main power switch and unplug the power cord from the receptacle.
 The stage units is so constructed that foreign matters such as sand etc. easily enter the clearance between the foot panel and the corner metals or the inside of the foot panel. Therefore, check it once a day, and if any foreign matter exists, detach the foot panel and remove it by brush or vacuum cleaner.
 Do not apply fats such as wax etc. to the top surface of the stage units including the foot panel. Otherwise, a player may tumble down by slipping to get injury.
 Do not wipe the foot panel (acrylic resin plate) with thinner or alcohols.
- •When replacing parts, be sure to use parts of the correct specifications. Never use parts other than the specified ones.
- •Strictly refrain from disassembly and repair of parts which are not indicated in this manual, as well as settings and remodelling.
- Be sure to turn OFF the main power switch and unplug the power cord from the receptacle.
- 2 Remove the corner metals which fix the foot panel and dismount the foot panel.

- **3** Pull out the connectors and remove the screws which fix the lamp unit.
- **4** Take out the lamp unit.

7-6 Resetting the circuit protector

How to reset the circuit protector

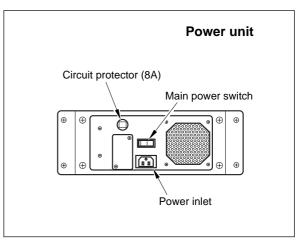

If an overcurrent or short circuit occurs, the circuit protector will be automatically actuated to protect the electric circuits of the game machine. When resetting the circuit protector, turn OFF the main power switch, unplug the power cord from the receptacle, eliminate the cause, and then press the button of the circuit protector.

- •Before resetting the circuit protector, be sure to turn OFF the main power switch and unplug the power cord from the receptacle.
- •If the circuit protector trips soon again, immediately turn OFF the main power switch, unplug the power cord, and contact your nearest dealer.
- •There are high-voltaged parts inside the product. Other persons than qualified industry specialist should not open the back door. When the back door is opened, pay due attention not to touch the inside unnecessarily.
- •If the sub power switch of the service panel is turned OFF without turning OFF the main power switch of the power supply unit, some parts in the units remain live. When opening the back door, be sure to turn OFF the main power switch and unplug the power cord from the receptacle.

•If the machine is in abnormal conditions and does not operate normally, immediately turn OFF the main power switch, unplug the power cord from the receptacle and contact your nearest dealer.

- **1** Be sure to turn OFF the main power swith and unplug the power cord from the receptacle.
- 2 Remove the cause of the trouble. Press the button on the circuit protector of the power unit.

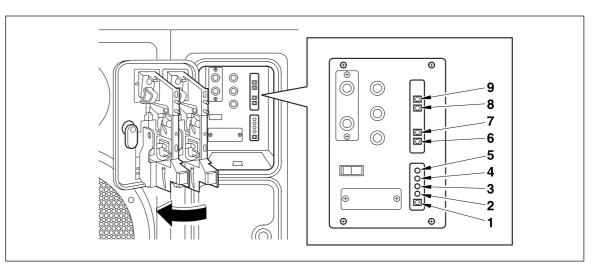

7-7 Adjusting the monitor

Monitor adjustment PCB ---

The monitor has already been adjusted at the time of shipment, but it may be readjusted as desired.

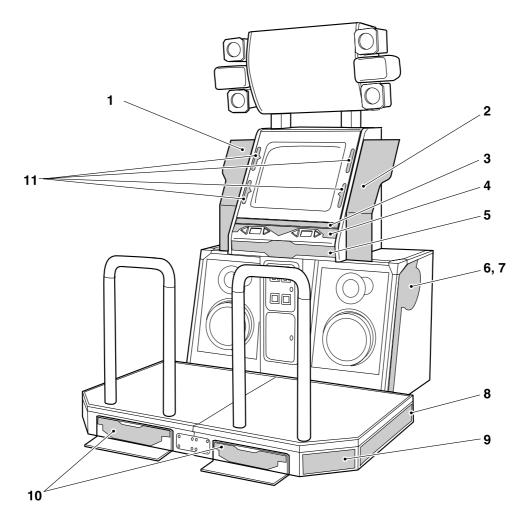

The monitor adjustment PCB is located inside the service panel. When adjusting the monitor, open the maintenance door. (See page 20)

1	CONTRAST	Contrast adjustment Used to changes the contrast.		
2	R.GAIN	Red input gain adjustment Changes red brightness. Turning it clockwise will make the red deeper.		
3	G.GAIN	Green input gain adjustment Changes green brightness. Turning it clockwise will make the green deeper.		
4	B.GAIN	Blue input gain adjustment Changes blue brightness. Turning it clockwise will make the blue deeper.		
5	BRIGHT	Brightness adjustment Changes brightness. Turning it clockwise will make the image brighter.		
6	H.SIZE	Horizontal screen size adjustment Changes the width of the screen.		
7	H.POSI	Horizontal image position adjustment Changes the image position in the horizontal direction.		
8	V.SIZE	Vertical screen size adjustment Changes the height of the screen.		
9	V.POSI	Vertical image position adjustment Changes the image position in the vertical direction.
