1 Placing your order

Before placing your order specify the machine it is meant for. Clearly specify measurements and colour of the machine, software version, etc. The older the machine, the more information we need. Please draw a sketch or even better, send us a digital picture by email for difficult spare parts.

We only accept orders by fax: ++32 (3) 778 05 61
You can email us pictures and more info at spares@elaut.be

International orders (non-Elaut NV-distributors) have to be prepaid before they are sent. Postage and special packaging is at the client's charge.

The sales terms are mentioned on the back of the invoice.

2 How to look for a spare part

a. Search by articlename

* Unique spare part:

A unique spare part is a spare part that is only used for one purpose in one location of the machine. Therefore it can be named according to the purpose/location it is used for/in and less for what it actually is.

TIP: look at the drawings and situate the spare part. Then use the location name to search for the part.

* Not-unique spare part:

A Not-unique spare part can be used for multiple purposes. Therefore it is named for what it is and not for what it is used for.

Example: article number 0000.0000 is a Lamp Halogen 20 Watt. It is used for different machines manufactured by Elaut so it is listed according to what it is: a lamp.

b. Search by articlenumber

All ELAUT articles have 8-digit numbers in the following format 1234.1234

WARNING:

The units used are in the **metric** system:

For example: profiles are per meter, bolts are per piece, etc

c. Search by articlecategory

* How to decide on the category

The number of categories is limited. When looking for a spare part there should only be a maximum of 2 categories to look in for.

ARTWORK	10
ELECTRIC+ELECTRONIC PARTS	11
EXTERIOR HOUSING	13
GANTRY + CLAWS	14
LIGHTING EQUIPMENT	21
MONEY HANDLING	22
PRINTED CIRCUIT BOARDS	23
WIRING + CONNECTORS	25

* Direction of reading

Please observe the direction of reading. The parts are listed alphabetically per category.

3 Using Adobe Acrobat Reader

Each Spare Parts Catalogue exists in 3 formats:

name_screen.PDF: a small file, fast scrolling, screen resolution, not for printing, for emailing

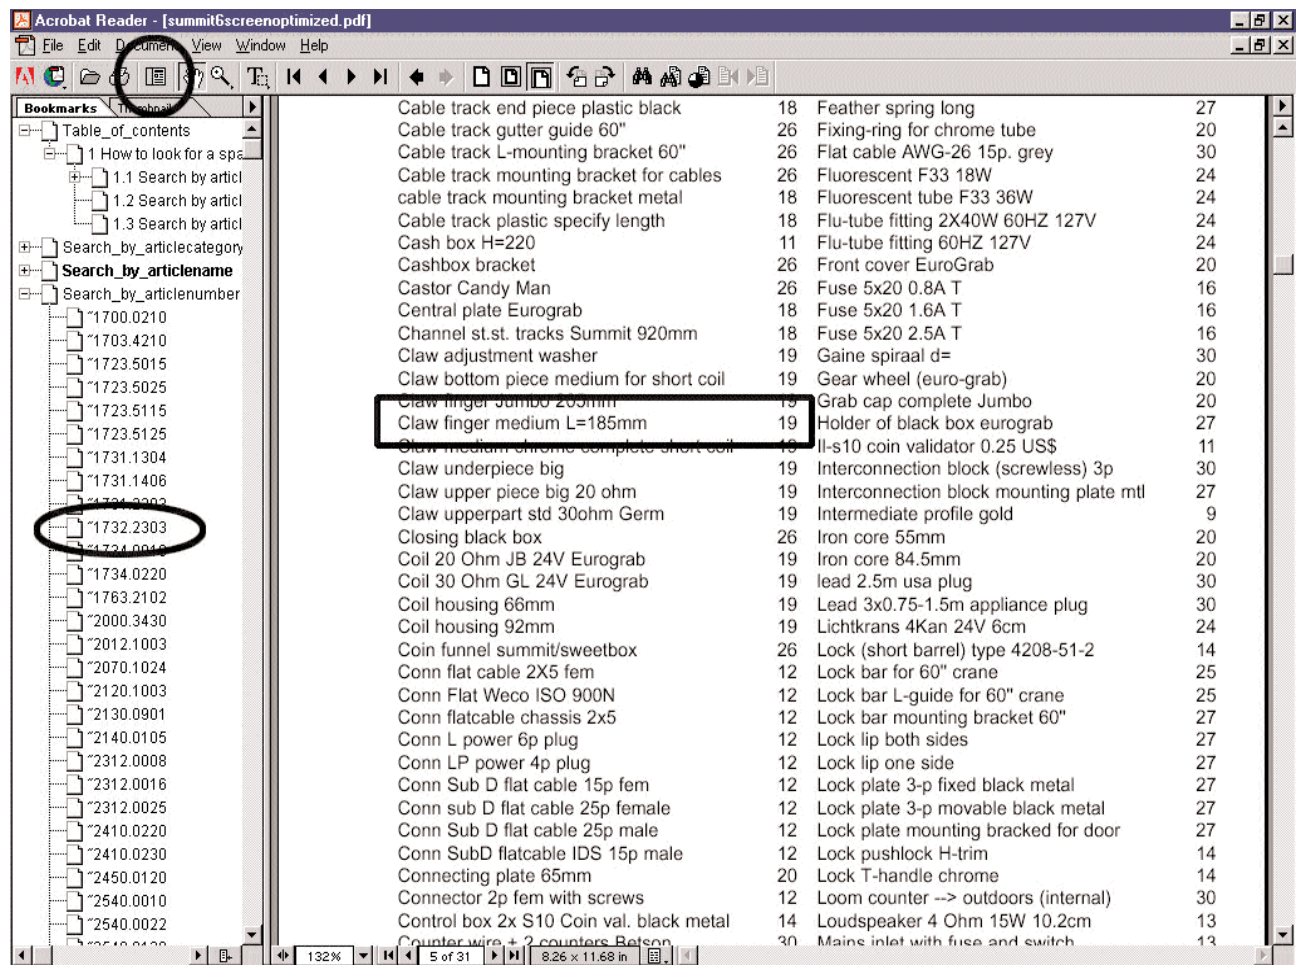

name_print.PDF: a bigger file, slower, better zoom in, better print quality

name_press.PDF: a big file, slow but with high resolution pictures, for printing

VIEWING TIPS:

Be sure to click the **Navigation Pane** (circle on the picture below). Like on the picture below you can navigate through the Spare Parts Catalogue by clicking the **bookmarks** (Ellips on the picture bellow) and the **+&- icons**.

You can also click on the article names and numbers in the right window (rectangle on the picture bellow).
